# A holistic approach to the victims of sexual exploitation

## **The victim of sexual exploitation does not realize of their condition of victim.**

They make themselves responsible for the situation that they are living, without taking into account, that they were manipulated through blackmail, deception or threats. The victim is convinced that it is their job to contribute and gives in their income, because the pimps convince them that it is the only way to reach their goals faster.

## **Immediately**

- Protection once they escape, or they are rescued, and through the process of the impeachment process.
- Immediate containment so they can process and understand their victim condition.

- Attend urgent mental or physical conditions, diseases or disabilities.
- Provide information about what it means to be a victim of sexual exploitation and the legal process.
- A secure place like a shelter, a safe house or a help center.
- Basic necessities: food, clothing, medical help, and psychological contention.

## **Eventually**

- Life project
- Studies / Training
- Work
- Medical attention, psychological, dental or others according to individual necessities.
